“Katie” and “Yanni” (watching TV with mom)

The saddest part of my departure is having to leave my pets behind. Here are their photos. “Katie” (6 found and adopted), “Heidi” (found severely injured – she’s 4 yrs. old), “Yanni” (born here at home 5 yrs. ago), and “Nuit” (My “Black Beauty”. Dropped off at our gate as a baby 5 yrs. ago) These four loving dogs and cats live and belong in-doors. They have been our companions, and more so mine, since my husband passed away last year. The are all neutered, vaccinated, and well cared for. They eat twice a day canned and dry food. And... the understand English and Spanish. If you can take them in pairs, I will be most grateful. They keep each other company and they are almost human. THANKS Pet Lovers!!!
